MODEL PH-4

HARNISCHFEGER CORPORATION

HOUSES DIVISION

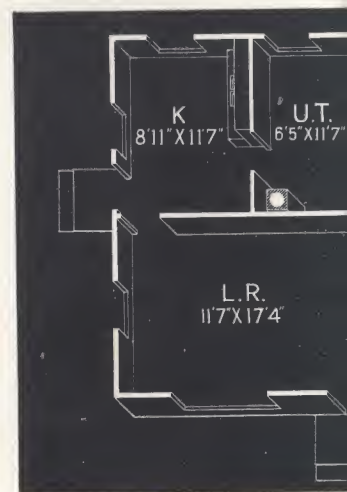

PORT WASHINGTON, WISCONSIN

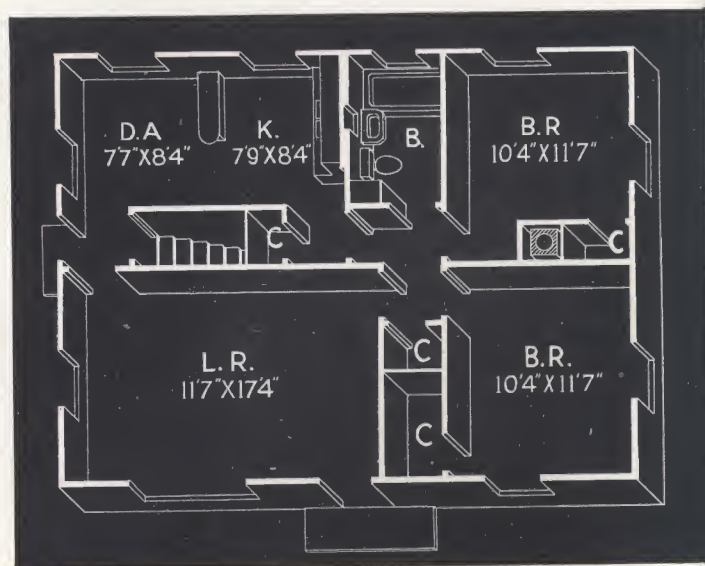

MODEL PH-1

MODE

- Full size homes — 24 ft. wide x 32 ft. long.
- With or without basement.
- Choice of 2 or 3 bedrooms.
- Completion on your own lot within 30 days.
- Large living room — 11'-7" wide x 17'-4" long.
- ENGINEERED economy which saves without sacrificing livability or quality.
- Modern horizontal 4-pane windows with metal weatherstripping and adjustable spring balances.
- Double-insulated exterior walls, cutting heat loss 60%.
- Good size clothes closets, complete with doors, poles and shelves installed.
- Modern flush type doors of top quality throughout.
- Joint-free CRACKPROOF 6-ply interior walls, with factory applied cream colored finish which can be redecorated with paint or wall paper, if desired.
- Factory engineered construction which provides up to 35 square feet more living space (see back page).
- Wall and roof sheathing of weathertight plywood — strongest, most weather-resistant construction known (see back page).

FLOOR PLAN "A" — 2 Bedrooms

FLOOR PLAN "B-2" — 2 Bedrooms — with Basement.

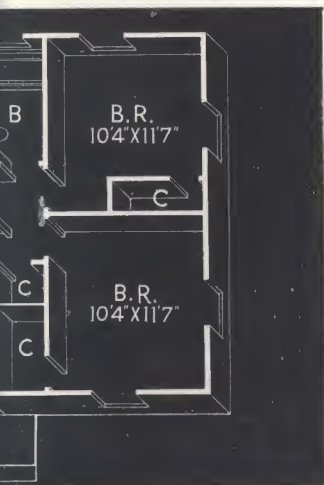

CHOICE OF THREE FLOOR PLANS

Each of the six P&H homes illustrated on this page may be had with any of the 3 floor plans offered — and each floor plan may be reversed if desired to suit your individual needs. Floor Plan "A" would be the most economical to build as it eliminates the basement, providing a utility room for the central heating unit, laundry and storage. Plans "B-2" and "B-3" both require basements — "B-2" providing 2 bedrooms and generous dining area, while "B-3" economizes with space to give 3 bedrooms.

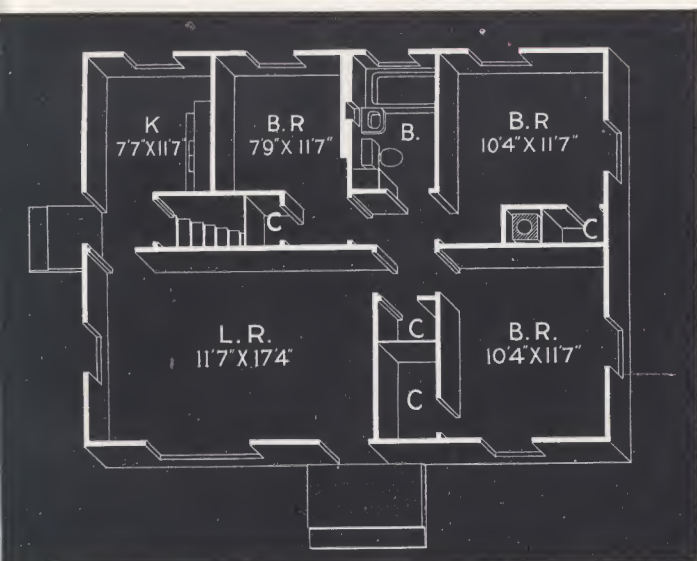

PH-4

MODEL PH-2

and Utility Room — No Basement.

- Choice of exterior finish — bevel siding, wood or asbestos shingles, etc.
- Extra heavy 5-ply sub-floors. More rigid, cleaner, squeakproof.
- Quality, easily cleaned asphalt tile, linoleum or other types of finish floors.
- Steel I-beams for permanent floor support.
- Solid brass hardware trim throughout, with modern plastic knobs for interior doors.
- Kiln dried selected Western lumber for all structural parts; Western Pine for all trim; all carefully graded to West Coast Lumbermen's Ass'n standards.
- Far more light and ventilation than in the average home. Triple window optional.
- Your selection of oil, gas or coal heat, automatic or manual control.

FLOOR PLAN "B-3" — 3 Bedrooms — with Basement.

QUALITY HOME WITHIN 30 DAYS

A P&H home will save you hundreds of dollars and months of waiting because it is precision-engineered at our factory. What's more, it will permit you to stop paying rent *within the next 30 days* and start building an equity in a home of your own. And it will be a home you can be proud to own — quality materials and correct design in every detail.

EASY FINANCING

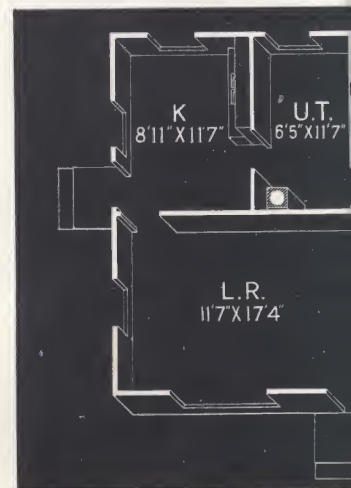

P&H construction is highly rated both by FHA and the Veterans Administration for insured loans. Because of low total cost, the down payment and monthly payments are within easy reach of the average family. You'll be surprised how easy it is to own a P&H quality home. Talk it over with your dealer today.

P&H

WORLD-WIDE MARK OF EXCELLENCE FOR OVER 65 YEARS

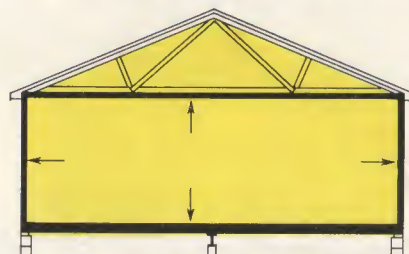

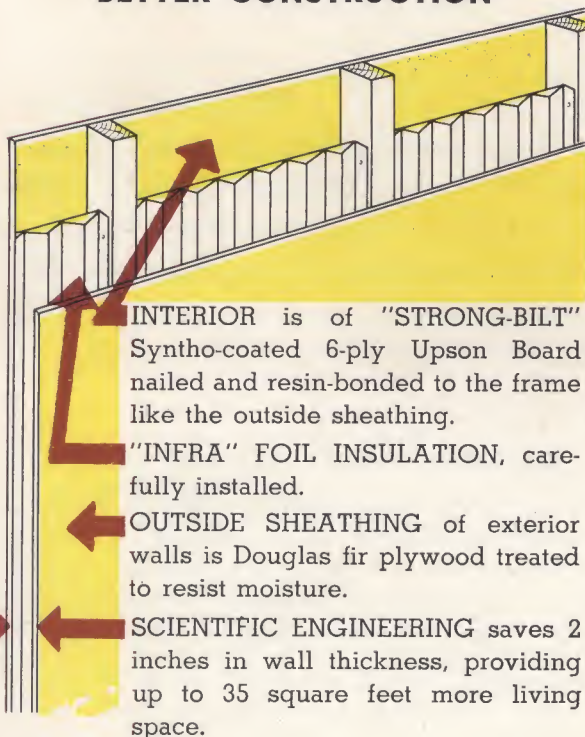

...CONSTRUCTION THAT **EXCEEDS** ACCEPTED STANDARDS FOR STRENGTH AND DURABILITY

WALLS 14 TIMES STRONGER

The amazing rigidity and strength of P&H wall sections is due to their "stressed skin" construction. Wall surfacing materials are not only nailed but also bonded to the frame with a waterproof resin of great strength.

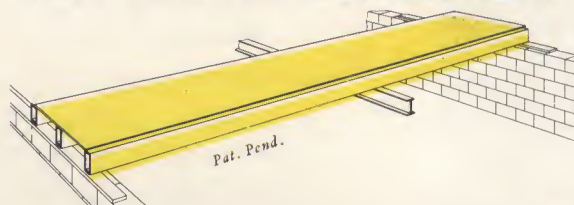

BETTER CONSTRUCTION

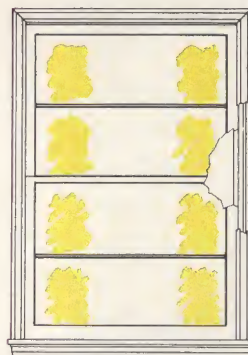

MORE EFFICIENTLY INSULATED

Since all insulation is *built in* while the panels are in a horizontal, easy working position, every inch of insulating material is carefully fitted and permanently secured in all walls, ceilings and also in the floors of basementless homes.

FULL LENGTH FLOOR SECTIONS

P&H floors are more rigid because they are constructed of built-up box girders and 5-ply sub-floor, factory assembled and resin bonded into 24 ft. lengths which span the full width of the house. Steel I-beam under floor gives permanent support without shrinkage. No squeaks or creaks here.

LARGE, MODERN 4-LIGHT WINDOWS

Easy to wash horizontal 4-light windows. Quality wood sash carefully fitted and equipped with metal weatherstripping and adjustable spring balances.
